Day 2: To explore the application of The Protective Behaviours Process

Families Feeling Safe, Protective Behaviours Services provide Protective Behaviours (PBs) training courses, PBs programmes and workshops for professionals and families. We work in partnership with a range of organisations to build capacity and the sustainability of Protective Behaviours practice. As an early intervention approach, Protective Behaviours can improve the emotional wellbeing of children, families and individuals of all ages and help them build the skills they need to keep themselves and others feeling safe while reducing the need for more specialist help. This course is also intended to support staff by enhancing their own emotional wellbeing, with skills and strategies to keep themselves feeling safe and with increased tools and ideas to use in their practice.

About Protective Behaviours

Protective Behaviours (PBs) is a practical and down to earth approach to personal safety, resilience and wellbeing that encourages self-empowerment and brings with it the skills to avoid becoming victimised. This is achieved by helping people recognise and trust their feelings (Early Warning Signs), build safe networks of support, develop strategies for problem-solving, recognise the influence of Unwritten Rules and beliefs, improve resilience and have increased awareness of how language can enhance communication and relationships to enable children, young people and adults to feel safe. The Protective Behaviours Process encourages an adventurous approach to life which satisfies the need for fun and excitement without violence and fear and is relevant to people of all ages and abilities including staff.
